HONEYCOMB TERRY TOWEL
Pink, Green, Grass, Tide

Welcome to one of the largest expansions of the MUKitchen design palette in our company's history. In 2024, we focused on filling out our existing categories with a mix of classic design and hot on-trend innovations. What does that mean for you and your customers? More choices and more variety—with the same level of high-quality standards you've come to expect from us.

Market forces are leveraging a moment for textiles. The tight housing market and higher interest rates have more people staying put in their home or apartment. And tasteful textiles can help refresh an existing kitchen or complement a remodel.
